New Behavioral Network- Delaware, Inc. is licensed in DE and is accredited by CHAP.

Focusing on the strengths of the children and the families we serve

Program Objectives

New Behavioral Network– Delaware’s Therapeutic Support for Families Program offers in-home and community based services to effectively engage the entire family in achieving desired goals.

By participating in program services, caregivers will:

- Build and maintain positive relationships with their children
- Gain knowledge and strengthen parenting practices, allowing them to successfully manage challenging behaviors and situations
- Build confidence in their parenting abilities and be provided support when challenges occur

By participating in program services, children (ages 3-17) will:

- Develop effective and meaningful ways to manage their behaviors and appropriately express their emotions

Team Members

Clinical Supervisor

The Clinical Supervisor, a licensed behavioral clinician, is responsible for providing ongoing weekly supervision and consultation services to the Therapeutic Support Specialist (TSS)

Therapeutic Support Specialist

The Therapeutic Support Specialist (TSS) provides one-on-one support, as outlined in a child’s individual treatment plan, within home, school, and community settings while simultaneously supporting the child’s family. The TSS is an integral part of child’s treatment team and works collaboratively with other team members to implement behaviorally based treatment strategies and interventions. The TSS provides direct therapeutic support and intervention to a child in order to assist in the development of positive emotional, social, and behavioral skills.

Services

Services are delivered by trained, skilled paraprofessionals

Therapeutic Support Specialists will:

- Work collaboratively with all team members to ensure treatment plans are meeting the family and child’s needs
- Model positive parenting techniques and pro-social behaviors
- Assist caregivers in identifying precursors and triggers that result in impairment
- Work traditional and non-traditional hours, in a variety of settings, in order to meet the needs of the family
- Assist children in developing age-appropriate self-management skills
- Provide therapeutic supervision of children during treatment and educational activities
